

# CALFED BAY-DELTA PROGRAM

**Public Meeting**  
**For San Diego Area Residents**  
**Come and be part of the solution!**

## You are invited!

**to an open-house meeting about the Bay-Delta**

The Bay-Delta, an intricate web of waterways created at the junction of the San Francisco Bay and the Sacramento and San Joaquin rivers, is a critically important part of California's natural environment and economy. It supplies drinking water for more than 22 million Californians, irrigation water for more than 4 million acres of the world's most productive farmland, and supports 120 fish and wildlife species; some found nowhere else on the planet.

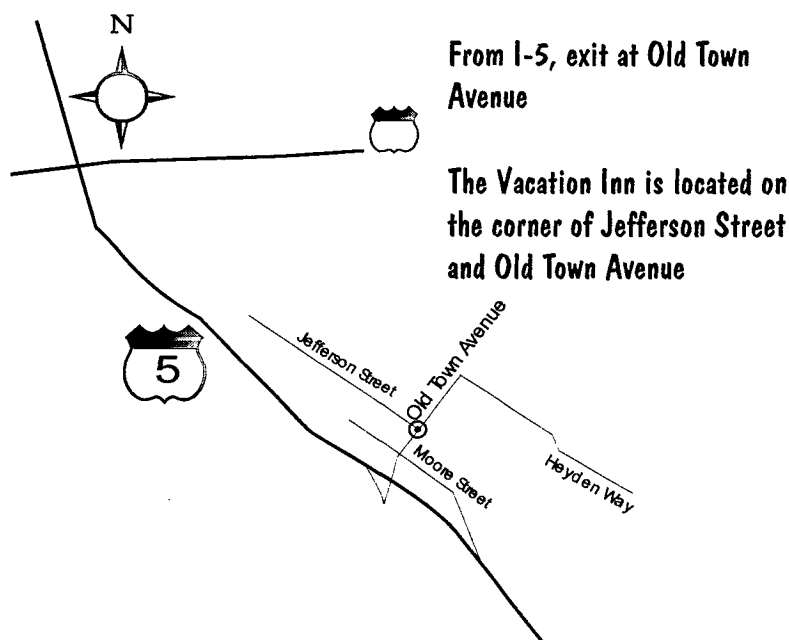

The CALFED Bay-Delta Program was initiated in 1995 by Governor Pete Wilson and the Clinton Administration to address the environmental and water management issues associated with the Bay-Delta. In January, CALFED will release its draft preferred alternative for a Bay-Delta solution. This is your opportunity to learn about the Program's work and get involved in solving the problems of the Bay-Delta and securing California's water future.

*\* Each meeting will feature an informal, open-house session during which you can browse displays and informational materials or talk one-on-one with Program staff. This will be followed by a prepared general presentation about the Program.*

**Thursday, December 4, 1997**  
**Vacation Inn, Cabrillo Room**  
**3900 Old Town Avenue, San Diego**

**5:30 – 7 p.m.    Open House\***
